

We bid "joi gin" (good-bye in Cantonese) to our colleague, friend, and mentor, Chris Biscoe...

In September, Chris Biscoe, co-chair of the Asia Pacific FIX Steering Committee left Asia to take up a new and exciting position in New York. Even before becoming chairman, Chris was instrumental in the growth of FIX in the region. As one of the creator's of FIXAsian (the predecessor of *FIXGlobal*), Chris worked tirelessly to make every issue informative, stimulating, and entertaining. Did you know that Chris hand painted the cover of Volume II, Issue 4 using paints he made from materials around the house? He didn't, but I'm sure he would have done if he thought it would have pushed more copies. On a personal note - Chris is the main reason I am the Asia Pac editor of *FIXGlobal* (something for which I will never forgive him) and the main source of my plagiarized welcome notes. His partners and friends in the Asian FIX Committee with certainly miss Chris' dedication to the cause of electronic trading in the region. A testament to his wit, enthusiasm, and huge vocabulary can be found in the words of his friends. Best of luck, Chris.

"A Farewell to Mr. FIX"

Chris Biscoe will be missed but not forgotten! Chris brought a sense of perspective to FPL in Asia. While Chris didn't force feed FIX like others may force feed the teachings of Noam Chomsky - he did promote FIX with a vigor that may go unrivaled in Modern day times. A true preacher of the FIX Gospel!" [Brook Teeter](#)
