MiFID Joint Working Group Receives Best Teamwork Award from Operations Management

FPL, ISITC Europe, RDUG and SIIA/FISD created a Joint Working Group in the 2nd quarter of 2005 to address the compliance requirements created by the European Union (EU) Markets in Financial Instruments Directive (MiFID). The group was presented an award from the Operations Management recognizing their spectacular performance in approving the automation of business processes. [October 2005]

Initial Proof of Concept Successful in Optimizing FIX for Streaming Market Data

FPL formally announced initial results from the Market Data Optimization Working Group Proof of Concept (POC) which is a focused effort designed to develop practical solutions for the efficient dissemination of market data. Visit www.fixprotocol.org in the What's New section on the home page to see results. [6 September 2005]

Release of the ICMA FIX Gap Analysis Report

In a joint effort, the FPL Global Fixed Income Committee's e-Syndicate Working Group and the International Capital Markets Association (ICMA) created an ICMA FIX Gap Analysis Report focused on Electronic Syndicate Messaging. This document compares and contrasts the high-level differences, at the messaging level, between the ICMA and the FIX protocol and will form the basis for enhancing the FIX protocol with syndication functions. [16 August 2005]

Events 2006
